

MENDES H. ROTH

Mendes was born in Switzerland 1944.

After an apprenticeship as an instrument builder (harps), Mendes travelled through Europe to end up for a job in Spain. He took jobs with repairs of an organ in a chapel and took odd jobs, as a waiter, chef, driver, and others. In 1972 he moved to Ibiza and worked with restoring of old country houses. In 1987 Mendes decided to move back to the mainland and restored an old Finca and then established the only Mango plantation in Estepona. Mendes built a hunter's hotel in Cordoba and made numerous restorations and repairs in the coastal area.

In 2009, Mendes retired and began to paint to see if he could. With some resistance he finally accepted to show his work on our walls at El Secreto de Baco.

Mendes is living in Cancelada and it is a real pleasure to have a local artist represented here on our walls.
