

OLGA LUKASEVYCH MARTYNIUK

I grew up surrounded by LOVE and nature.

Always attracted by the beauty of mother nature, of small details that make us fly with the imagination. The smell of wood, the beauty of flowers, the sound of water, the touch of snow, the forest air.

Thanks to the LOVE of my family and friends I am who I am. A woman who ALWAYS tries to give the best of me. Always trying to help others and to see with the HEART.

In 2019 I felt attracted by the gravity that painting exerted on me and I discovered that I could change the world with images and I began to write possessed in my paintings.

I take nature and the human condition as reasons for my work, I do not intend to represent anything more than life, passion, pain, pleasure, the enigma and all the emotions caused by the contemplation of the natural environment. Emotions in ideas, which give way to a form, neither ordered nor ruled, only suggested.
